Please take note of the press release of the Company given below. This is for your kind information and notice.

**Chennai, 07th May, 2013: Info-Drive Software Limited (Info-Drive)**, pioneering in Credit Society end to end automation software has been awarded a letter of intent (LOI) for a major contract under the aegis of Additional Registrar of Co-operative Societies, Government of Tamilnadu for the fully integrated enterprise-wide Web Based Solutions for management and automation of credit society operations of 110 societies in the Chennai region. Info-Drive would handle through a set up of Data Centre and a Disaster Recovery Centre apart from installation, implementation, maintenance and support for a period of 5 years on a Build, Operate and Transfer (BOT) basis.

Info-Drive has been awarded this contract after a very rigorous E-Tender process by the Government of Tamilnadu and sees the contract award as confirmation of Info-Drive's unassailable position within the domain of credit society automation software. This is also seen as path breaking as this may be the first time a web based solution has been preferred as against traditional software development project awards.

Info-Drive also sees this as a major potential area for the solution as there are tens of thousands of such societies in India and Overseas. This solution will be one of the prime focus areas for the company in future.
